

David's Cove, Mayne Island

# Mayne Island Health Centre

NURSE PRACTITIONER AND FAMILY  
PHYSICIAN POSITION VACANCIES

Here's a unique opportunity to join a well-established and dynamic Family Practice serving a diverse patient base in our idyllic island community.

If the thought of "island life" appeals to you, please read on. You won't be sorry you did.

# Two exciting opportunities available

We are thrilled to expand our health care team to enhance our services to the community — and welcome your interest in joining us.

We have an opening for a full time Nurse Practitioner, and a full time Family Physician to join the current Family Medicine Physician and her dedicated team.

We're flexible: Your clinic hours and commitment can be tailored to your needs and availability.

Blue Heron taking a bold step

# Mayne Island, BC – the place to be!

Mayne Island offers a vibrant arts, culture and music scene as well as a wide range of recreational activities including sailing, kayaking, hiking/walking, gardening, tennis and even pickleball.

It's a wonderful place for young families and retirees alike.

The pace of life on Mayne allows for time for family and friends and the enjoyment of other activities.

It's also a community whose backbone is volunteerism through many non-profit societies.

# Mayne Island Family Place

What young mothers are saying about this licensed day care centre:

“My two-year-old has part-time child-care in the incredible nature-based program, and after my second maternity leave, the Family Place will allow me to return to work. It is also a community hub for families to connect.”

“This cozy centre lends vibrancy and sustainability to our community, and the parents of 28 kids on our wait list are so grateful they will receive quality reliable child care.”

# Who and where we are

Part of the Southern Gulf Islands, Mayne is situated half-way between Vancouver and Victoria and is a ferry transportation hub between and among the other islands.

Mayne's permanent population of 1370 consists of a large contingent of seniors as well as a very welcome increasing number of young families.

A significant number of part-time residents add to the population on weekends and during the summer and participate in our annual Fall Fair.

In peak seasons, the population spikes further with visitors and tourists.

So you'll have no end of variety in the care you provide.

# Central hub of community support

The clinic is part of the Mayne Island Health Centre, which offers complementary health services such as community and public health nursing, lab specimen collection, physio and massage therapy, chiropractic care and mental health counselling.

Situated next to the Health Centre, the BC Ambulance Service is available 24/7.

Our state-of-the art firehall complements this hub of emergency support.

# Clinic Waiting Room and front office reception

Patients are welcomed to a bright and spacious Covid-safe area surrounded by natural light and soothing music

Our exceptional team of Medical Office Assistants has many years of experience supporting our health care providers and our diverse cross-section of patients – from young to aging members of our community.

In small rural settings like ours, MOAs play an integral role liaising between health care providers and our patients.

# Treatment Room

Built in 1976, the Health Centre was expanded in 1996 and again in 2013 with the addition of this bright, large, very well-equipped Treatment Room.

It supports everything needed to work in major and minor emergencies – very similar to a hospital ER and under the guidance and standards of Island Health.

Access to the helipad and Ambulance Services is only steps away.

# Minor Treatment Room

This room has multiple purposes and is often used as a secondary urgent care room.

It is used frequently for dressing changes, vitals, home care clients, biopsies or other minor procedures.

It is a flexible, multi-functional complement to our overall space.

# Medications and Supply Room

There is no pharmacy on the Island and the nearest one is in Sidney. We do have a local courier providing prescription pick up and delivery service three times per week.

The Clinic has a wide selection of sample medications such as antibiotics, topicals, inhalers and other medicines a patient might need until a full prescription can be filled.

There are also no X-Ray services available on Mayne.

Patients requiring care beyond the scope of the clinic are sent to Vancouver Island via ferry, water taxi or helicopter.

# Family Doctor's Office

Dr. Juliana Losier's personal office

This comfortable and peaceful space provides a welcome relaxing atmosphere and park-like pastoral view of a nearby farm.

# Doctor's Exam Room

A private and confidential space where patients are seen in a professional atmosphere surrounded with evidence-based, personalized holistic care.

# Nurse Practitioner/PCP office and exam room

This large well-appointed space is comfortable and inviting to patients and families.

Fully equipped with access to the clinic's Accuro Electronic Medical Record System and Island Health, this space allows for ample storage and shelving that can be personalized for the Primary Care Provider's needs.

Accessible and private, this is a great office space for the new primary care provider.
